PROFILE

Highly motivated MERN Stack Developer with a strong foundation in computer science and hands-on experience in building scalable web applications. Proficient in MongoDB, Express.js, React.js, and Node.js, delivering efficient, user-focused solutions with clean, maintainable code.

SKILLS

Programming Languages

- **C:** Experience with writing simple programs, understanding of fundamental concepts such as loops, conditionals, and functions.
- **C++:** Experience with object-oriented programming, including understanding of classes, inheritance.
- **Python:** Basic experience with scripting and data manipulation, familiarity with core programming concepts

Web Development

- **HTML:** Experience with creating and structuring web pages using HTML5.
- **CSS:** Basic experience with styling web pages, including knowledge of layouts, colors, and responsive design.
- **Bootstrap:** Basic experience with using Bootstrap framework for responsive and web design.
- **JavaScript:** Experience \ understanding of core concepts like variables, functions, and event handling.
- **Tailwind CSS,** creating responsive designs, utilizing utility-first classes for rapid UI development and customization.
- **React.js,** Building responsive UIs, managing state with hooks, routing, and API integration.
- **Node.js,** Building scalable backend services, handling API requests, managing databases, and optimizing server-side performance.
- **Express.js:** Skilled in developing RESTful APIs, middleware, and routing for scalable, efficient server-side applications.
- **MongoDB:** Proficient in designing schemas, managing NoSQL databases, optimizing queries, and ensuring data integrity.
- **Mongoose:** Experienced in ORM integration, performing CRUD operations, schema validation, and implementing middleware for robust database solutions.

EXPERIENCE

Experience

- Proficient in creating responsive and user-friendly web applications using HTML5, CSS3, and JavaScript, leveraging frameworks like Bootstrap and Tailwind CSS for efficient UI development.
- Experienced in building dynamic, state-managed front-end interfaces with React.js, utilizing hooks, routing, and seamless API integration.
- Skilled in developing scalable backend services using Node.js and Express.js, implementing RESTful APIs, middleware, and efficient server-side architecture.
- Proficient in MongoDB for database management, including schema design, query optimization, and ensuring data integrity with Mongoose ORM.
- Hands-on experience in building and maintaining full-stack applications, including projects like blogs, Book Store, and weather apps.

PROJECTS

Netflix Clone

Developed a Web Page using HTML ,CSS

Portfolio Page

Developed a Web Page using React js , Tailwind CSS ,

Website Front-end Design

Developed a Web Page using HTML ,CSS ,Bootstrap

Weather Api Web-App

Developed a Web Page using HTML ,CSS ,JavaScript

Calculator

Developed a Web Page using HTML ,CSS ,JavaScript 

Blog Web Site

Developed a Web Page using React js , CSS , Node.js ,Express.js, mongoDB

Book Store Web Site

Developed a Web Page using React js , Tailwind CSS , Node.js ,Express.js, mongoDB

CERTIFICATES

C Programming

ZeetronNetwork (IIHT)

Web Development Internship

ZealCode PVT. LTD.

Mern Stack Training and Internship

Grass Solution PVT LTD

EDUCATION

2024

Bachelor of Technology in Information Technology and Engineering

AJMER, India

2020

Senior Secondary

Parbatsar Naguar
